

Name of Activities: Mandarin Culture Club

Year Group: Year 2

Day: Monday

Type of Activity: General knowledge

Teacher: Ms Sim Jia Xin

Equipment Required: Paper and pencil

Description of Activity (including goals):

“Mandarin Culture Club” 'is to have students to understand the Mandarin language and also its culture for the past 5000 years in China history. Students will be having some small role play in the lesson to know about Chinese culture. Festivals, celebrations, clothes and buildings will be introduced to the students. They can think and give themselves more understanding towards the Chinese culture. It is also a way to learn what ancient people can do compared to this technological world.

Final Outcome:

Students will get to know what China looked like a long time ago which we are not able to see. It can have the Chinese to know where we are from and give the non-Chinese a new knowledge on Chinese culture.

Name of Activities: Sketch/Drawing activity

Year Group: Year 2

Day: Monday

Type of Activity: Creativity

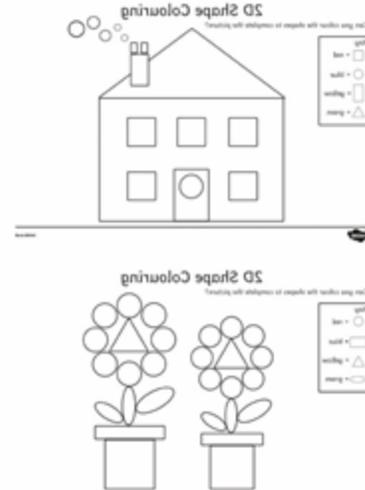

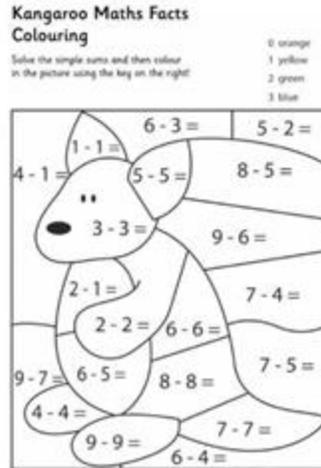

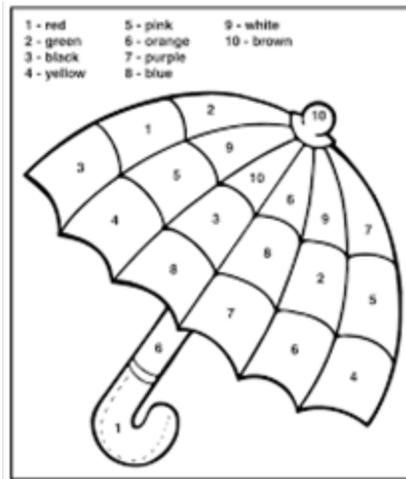

Teacher: Ms Zuhaira

Equipment Required: Stationeries

Description of Activity (including goals):

Sketching is a rough drawing which helps to develop fine motor skills. This activity also helps students to develop hand-eye coordination so that everyday tasks can become easier for them. Drawing means they are constantly thinking or feeling something, so what they choose to draw, the patterns they use, and the story they try to portray helps them build in their knowledge and visual skills.

Final Outcome: Students will be able to draw about what they are feeling and thinking. They also will be able to improve their imaginative skill and portray their ideas through drawing. Students will tend to become more focused and concentrate in class.

Name of Activities: Mandarin Ancient Words

Year Group: Year 2

Day: Wednesday

Type of Activity: Writing

Teacher: Ms Sim

Equipment Required: Paper and pencil

Description of Activity (including goals):

“Mandarin Ancient Character Club” 'is to have students to understand the Mandarin language and words from the ancient times until today. Students will learn to write down the words that were used by the ancient world and its transformation. From the words, students will see why the words were written in the particular shapes and the meaning behind the words. This makes a clearer picture for the students.

Final Outcome:

Students will get to know how the words and its meanings are in another way between the picture and the words relation. This can enhance the students to know more about the Chinese characters and it will be easy for them to learn. By this way, the students will be inspired to learn the characters by themselves.

Name of Activities: Word Search

Year Group: Year 2

Day: Wednesday

Type of Activity: Critical thinking skill/vocabulary

Teacher: Ms Zuhaira

Equipment Required: Stationeries

Description of Activity (including goals):

Word search is a word puzzle that involves searching for words in a grid of letters. It acts as a form of brain training, which essentially increases productivity as children develop vital skills, such as grasping concepts, learning, memorizing, noticing patterns, and more. Kids who can complete puzzles often learn to think out of the box more easily, which later on in life is a great tool for increased productivity.

Final Outcome:

Students will be able to improve their vocabulary and spelling skills. This activity also helps students to boost working memory which can make them work fast. Word search not only helps the students to improve their literacy skills but is also beneficial for other classroom tasks that require quick thinking such as mental maths activity.

Name of Activities: 3D art craft

Year Group: Year 2

Day: Thursday

Type of Activity: School Enrichment

Teacher: Ms.Kamini

Final Outcome:

This activity will increase their fine motor skill and gross motor skill. It will relax their mind too.

Name of Activities: Spelling Bee

Year Group: Year 2

Day: Thursday

Type of Activity: Literacy skill

Teacher: Ms Zuhaira

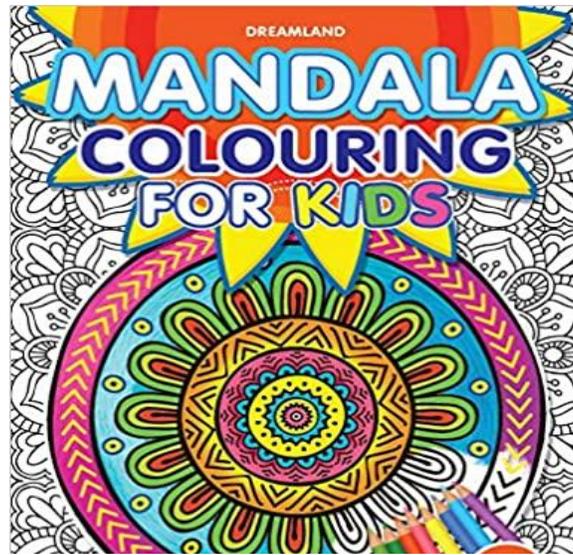

Equipment Required: Stationeries

Description of Activity (including goals):

Spelling is important because it aids in reading. The importance of spelling is when students learn to spell correctly, they will be able to read and recognize words quickly.

Final Outcome:

Students will be able to improve their vocabulary and spelling skills. This activity also helps students to boost working memory which can make them work fast. Spelling activity not only helps the students to improve their literacy skills but is also beneficial for other classroom tasks.

Name of Activities: Mandala Coloring

Year Group: Year 2

Day: Friday

Type of Activity: Arts and creativity

Teacher: Ms Zuhaira

Equipment Required: Color pencils, crayons, color pens or etc

Description of Activity (including goals):

Coloring Mandala is an activity that combines the benefits of meditation and art therapy into a simple practice that can be done at any time and place. Mandalas, meaning "circles" in Sanskrit, are sacred symbols that are used for meditation, prayer, healing and art therapy for both adults and children. Mandalas have been shown in clinical studies to boost the immune system, reduce stress and ease depression. According to Buddhists, their circular form and drawings help people to order their inner-self. Because of this, it can be very beneficial for children to color in mandalas from a very early age.

Final Outcome:

Students will be able to improve their hand-eye coordination skills and improve the accuracy of their writing skill. Through this activity also, students will able to enhance concentration and increase their self-esteem.

Name of Activities: Playdough

Year Group: Year 2

Day: Friday

Type of Activity: Student Enrichment

Teacher: Ms Thurga

Equipment Required: Playdough

Description of Activity (including goals):

Each week the students will be given a different theme to focus on while planning, designing and creating their playdough sculpture. Themes include the solar system, plants and animals, significant buildings such as the Taj Mahal.

Final Outcome:

1. Enhance the children motor skills
2. Improve creative thinking
