

Name of Activities: Sudoku Club

Year Group: Year 9

Day: Monday

Type of Activity: Creative

Teacher: Mrs. Pang Sook Yee

Equipment Required: Stationery box, Chromebook

Description of Activity (including goals):

Sudoku is an easy to learn logic-based number placement puzzle. The word Sudoku is short for Su-ji wa dokushin ni kagiru which means "the numbers must be single". Sudoku puzzles are based around a grid, into which you have to place numbers in the right squares. Most Sudokus are 9 squares by 9 squares (although other varieties are possible), and are subdivided into nine boxes each of 3 squares by 3 squares.

Each student will have a booklet containing Sudoku exercises 9 x 9 from easy mode to hardest mode and some 16 x 16 exercises. They have to aim to complete 80% of the exercises during this term. At the last 15 minutes of activity time, whole class students have to join an online 9 x 9 Sudoku game and see their ranking among the whole class.

Final Outcome:

The benefits of Sudoku is that it requires the player to concentrate on the grid and use logical thinking to find the solution for each cell. While doing this, the brain becomes fully focused on the task at hand rather than the source of stress and anxiety.

Picture	Evolution	Modern character	English
	→  → 	→ 日	sun
	→  → 	→ 月	moon
	→  → 	→ 木	tree
	→  → 	→ 山	mountain
	→  → 	→ 水	water
	→  → 	→ 田	field
	→  → 	→ 門	door

Name of Activities: Chinese characters evolvement

Year Group: Year 9

Day: Monday

Type of Activity: School Enhancement

Teacher: Ms. Soon

Equipment Required: Chrome book, notebook & pen.

Description of Activity (including goals):

Chinese character evolution aims to provide opportunities for students to learn the basics and the fundamentals of the Mandarin words. They also learn the origin and the history of the “pictorial” words and how the “pictorial” word transforms to the simplified mandarin version. Students research and present through google slides in class.

Final Outcome:

Through these activities, students will have more exposure to the evolution of the Chinese characters. Besides, students can appreciate and understand the Chinese words more easily. Learning Mandarin gives them access to communicate with many people and connect on a deeper level, not just in Asia but across the world.

Name of Activities: Geography/History -
Kahoot/Homework Club

Year Group: Year 9

Day: Friday

Type of Activity: Creative/Educational

Teacher: Mr Chris Rodrigues

Equipment Required: Chromebooks / Exercise Book

Description of Activity (including goals):

Students will be taking part in a skill and knowledge-based activity where they will review the lessons that they have learnt that week in Geography and History by answering questions based on the lessons that week.

The purpose of the activity is to consolidate their knowledge in the topics/lessons learnt that week through a fun and less formal environment.

Final Outcome:

Students will achieve a better knowledge and understanding through group discussions or individual help from myself in small targeted sessions

Name of Activities: Display Bulletin Club

Year Group: Year 9

Day: Friday

Type of Activity: Skills

Teacher: Ms. Nellie Wong

Equipment Required: Chromebook, paper, art and craft supplies

Description of Activity (including goals):

At each session, students will be given a topic, based on TIME Magazine covers (e.g. 'The Most Influential People of the 20th Century', 'Person of the Year', Amanda Gorman, 'The Lost Year', etc.) to be researched. They will be presenting their findings in different forms (e.g. posters/ written/ drawn) to be displayed on the bulletin board.

Final Outcome:

Students will learn skills such as scanning and skimming for information while doing their research. They will also learn how to present their information in different means as well as making their display as eye-catching as possible. Ultimately, they learn topics which are beyond their classroom topics or subjects.
